FULL STACK DEVELOPER

PROFESSIONAL SUMMARY

- Full Stack Developer experienced in designing, building, and deploying production-ready web applications across education, healthcare, insurance, and portfolio domains.
- Built multiple live projects using React, Next.js, TypeScript, Node.js, Supabase, Tailwind CSS, and modern AI-assisted development tools.
- Hands-on with authentication, API integration, responsive UI development, deployment, and end-to-end product ownership.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, PL/pgSQL

Frontend: React, Next.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Supabase

AI Tools: Google AI Studio, Cursor, Lovable, Antigravity

Tools: GitHub, VS Code, Figma, Vercel, Render

SELECTED PROJECTS

EduSlide AI | Live: [EduSlide.in](https://eduslide.in)

- Built an AI-powered web app that helps students generate study content and presentation-ready outputs from notes.
- Designed and developed the product independently using TypeScript, HTML5, CSS3, and Google AI Studio.
- Deployed the application publicly and served roughly 500-800 users.
- Implemented a lightweight local processing workflow with no backend database or authentication.

Medioveda | Live: <https://hms-system-demo.lovable.app/>

- Built a hospital management and appointment system for doctors, patients, and administrators.
- Implemented authenticated admin, doctor, and patient dashboards using TypeScript and Lovable.
- Added appointment booking, patient history, billing visibility, prescription workflow, and status updates.
- Created a production-ready demo and deployed the application publicly.

ClaimDesk | Live: sankeyshandilya.in

- Built a client project for TVS insurance claim management, covering claim intake to final delivery status.
- Developed the customer portal for registration, claim filing, document tracking, and chat updates.
- Built the admin panel for claims, customers, documents, chat, parts management, and notifications.
- Implemented Google OAuth and email-password authentication with Node.js and Supabase.

School Website | Live: vyas-academy-web.vercel.app

- Built a school website for Vyas Academy Sr Sec School focused on admission leads and public information.
- Designed a responsive frontend using TypeScript and deployed it on Vercel.
- Created a clean, simple interface for school outreach and basic lead capture.

Personal Portfolio | Live: nikhilsinha.in

- Built a personal portfolio website to showcase projects, skills, and professional links.
- Developed the site using HTML5, CSS3, and JavaScript with a lightweight deployment.
- Structured the portfolio for recruiters to quickly review live projects and contact information.

EDUCATION

- Parul University, Vadodara, Gujarat - B.Tech in Computer Science and Engineering, 2026-2030 (First Semester)
- Class 12, Vyas Academy Sr Sec School, Udaipur, Rajasthan Board - 77.2%, 2025
- Class 10, Rajshree Sec School, Udaipur, Rajasthan Board - 77.5%, 2023

ADDITIONAL INFORMATION

- Languages: Hindi, English
- Availability: Immediate internship joining
- Work Preference: Remote internship
